SUMMARY

I'm a Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and React.js. I've worked on projects like a digital menu card and a weather app, which helped me build real-world problem-solving skills. I love crafting clean, responsive, and user-friendly interfaces. I'm also comfortable working with UI design concepts and tools, and familiar with project management platforms like Azure DevOps and JIRA. I'm excited to join a team where I can keep learning, grow alongside experienced developers, and contribute to meaningful projects.

EXPERIENCE

Software Engineer Intern

Feb '24 — Jan '25

HUMMINGBYTE TECHNOLOGIES PVT LTD

Nasik, Maharashtra

- Worked as a Software Engineer Intern at Humming Byte Technologies, developing and optimizing web applications
- Designed RESTful APIs for smooth data exchange and improved UI responsiveness. Collaborated with the team to troubleshoot issues and enhance system performance.
- Developed and optimized web applications to enhance user experience. Wrote clean, efficient, and maintainable code to improve system performance. Involved in team discussions, brainstorming, and projects. Designed and implemented RESTful APIs using Node.js, ensuring smooth data flow between the front-end and back-end. Debugged and troubleshooted application issues, ensuring seamless functionality.
- Designed and implemented JSON-formatted API responses for integration with client applications.
- Worked on front-end and back-end technologies, enhancing my technical knowledge.
- Built strong professional relationships and worked effectively in a team environment. Demonstrated adaptability, problem-solving skills, and a proactive approach to learning.

EDUCATION

MSc Gondwana University, Gadchiroli (GPA: A+ Grade)

2023

PROJECTS

Digital Menu-Card: Developed a full-stack digital menu card application allowing restaurants to update and showcase their menu items dynamically. Built REST APIs with Node.js and PostgreSQL, and created a responsive frontend using React. [Link](#)

- **Skills I Used:** React, HTML, CSS, JavaScript, Node.js, Express.js, PostgreSQL, REST API integration, Responsive Design UI Development, Bootstrap

RTO Dashboard (API Integration): Developed a comprehensive system for vehicle registration, license management, and collection of fines. A feature implemented to scan vehicles, retrieve details from registered vehicles, and manage RTO registrations efficiently. Designed an admin dashboard to handle applications, approvals, renewals, and fine collections while ensuring secure authentication and data maintenance. [Link](#)

- **Skills I Used:** HTML, CSS, JavaScript, Bootstrap, Realtime APIs.

Real-Time Weather App: Developed a real-time weather app using JavaScript and the Open Weather API. Improved API response handling, reducing load time. Designed a responsive UI for seamless user experience on mobile and desktop. [Link](#)

- **Skills I Used:** HTML, CSS, JavaScript, Realtime APIs.

Portfolio Website: Developed a personal portfolio using HTML, CSS, JavaScript, and React to showcase skills, projects, and certifications in a responsive layout. [Link](#)

- **Skills I Used:** HTML, CSS, JavaScript, Template

SKILLS

Programming: HTML, Tailwind CSS, JavaScript

Frameworks: React.js, Express.js, Bootstrap, Node.js

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, VS Code, Postman, Thunder Client, ChatGPT, Azure DevOps, JIRA

UI Skills: Responsive Design, User Interface Design

Soft Skills: Problem-Solving, Team Collaboration, Adaptability, Attention to Detail, Time Management, Communication Skills

CERTIFICATIONS

Full Stack Development, Coding Seekho

Jan '24

AWARDS

Secured 3rd prize in Group Discussion during the MSc program. Participated in Y20 India 2023 seminar

Participated in Science Exhibition at college level
